PRIX AVRIL 2010

RC-Cruiser (Recreational Carbon): The RC-Cruiser is multiple layers of carbon fiber laminated together in the infusion process to produce a single skin allowing for increased hull durability. This boat is designed to offer a more stable design than our racing shells, while still giving the athlete positive feedback (speed) for effort input. The RC-Cruiser has a carbon weave clear coated finish.

RG-Cruiser (Recreational Glass): The RG-Cruiser is multiple layers of fiber glass laminated together in the infusion process to produce a single skin allowing for increased hull durability. This boat is designed to offer a more stable design than our racing shells, while still giving the athlete positive feedback (speed) for effort input. The RG –Cruiser has a white gel coat finish and is 5% heavier than the RC model.

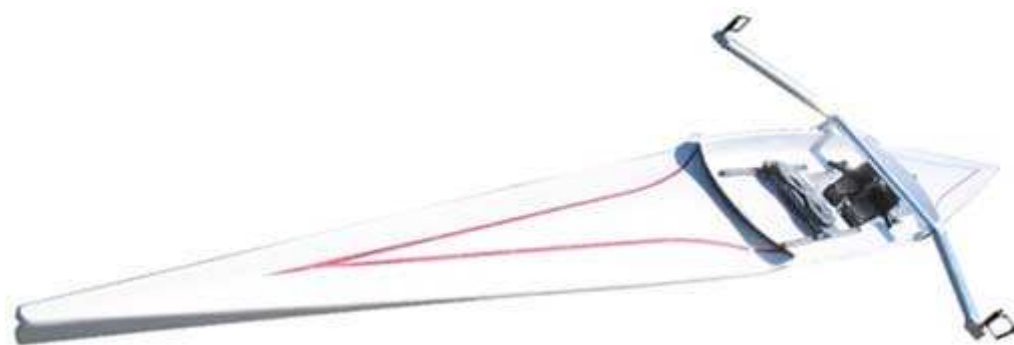

Dimensions

Length: 21' 6"

Waterline Beam: 20"

Capacity: 250+lbs (crew) 300lbs (displacement)

With the same race proven fittings as our racing shells, this boat offers a range of adjustability to fit any athlete.

The T line provides an incredibly stable durable boat, making rowing accessible and safe for beginners and experienced rowers alike.

Hulls

T-6 - Single (18 feet long, 22"wide, Weight 65lb)

T-11 - Coxed Quad (36 feet long, 32" beam, Weight 155lbs)

Construction

T-6: The T-6 hull is constructed of Royalex® ABS material for a tough and durable hull. This boat is designed to assist individuals to learn the sport of rowing, or be a recreational boat for the rower who wants to get exercise in a stable environment.

T-11: The T-11 hull is laminated layers of Prepreg fiberglass and carbon fiber. These boats are designed for touring on open bodies of water or to provide a great teaching boat for the sport of rowing.

Since 1990 all of our boats have been equipped with wing style riggers. We are now in the 5th generation of the wing which we believe is the stiffest and simplest rigger on the market. The T-boat line also comes equipped with Concept 2 erg flex feet, making these boats even easier for multiple individuals to row.
